

The slide features a decorative border of green leaf patterns on a white background. The main content is enclosed in a dark green rectangular frame.

NUISANCE ODOURS FROM CANNABIS PRODUCTION

David Miller
County of Brant
Councillor

"Another spring is upon us and another season of the rancid, sickening, skunky odours emitting from the cannabis operation at.... Please Help!!!!....."

Faye H.

How might we help you?

How Might I...

About Us

Cannabis complaint? Fill out a bylaw services PSR [here](#)

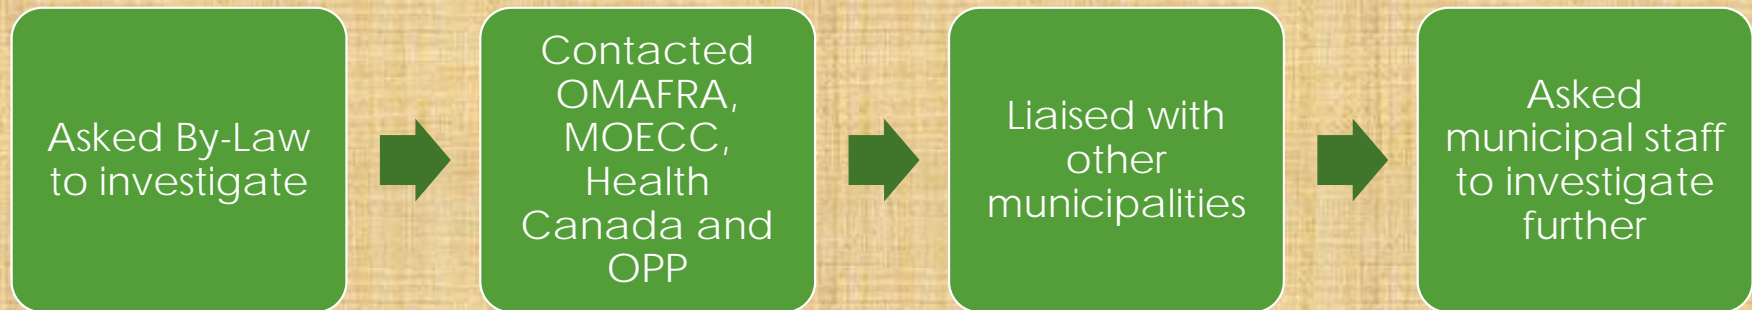

We are not strangers to offensive odour problems

- ❖ Mushroom substrate facility (OMAFRA)
- ❖ Rendering plant (MOECC)

What did I do?

What have we learned thus far?

Cannabis production is permitted under two categories

1. Cannabis LICENSE
2. Registration CERTIFICATE to produce medical cannabis for personal use

Cannabis License

Municipality must be notified

Odour filtration system
installed

Are regulated by zoning by-
laws (setbacks, zoning, areas,
site plans etc)

Registration Certificate

No notice required for
municipality

Can produce for up to 4
registrants (1200-1600 plants)

No filtration system required

Next Steps

[This Photo](#)

[CC BY-SA](#)

- ❖ Express concerns to Feds
- ❖ Review land use controls for cannabis to increase scope of all forms of cannabis production
- ❖ Look at increased setbacks, landscaping, buffering, etc.
- ❖ Lobby province to provide sufficient resources for OMAFRA and MOECC to address cannabis odour concerns
- ❖ Enact an odour control by-law?
